Global Fossil Carbon Emissions Estimates

The overall value of subsidies to renewables is set to rise

Figure 14.13: Global subsidies to renewables-based electricity and biofuels by region in the New Policies Scenario

Renewable subsidies of \$66 billion in 2010 (compared with \$409 billion for fossil fuels), reach \$250 billion in 2035 as rising deployment outweighs improved competitiveness

Kampen om ressursene

Vi kan ikke brenne all olje og gass

Muligheter for å lete etter mer olje og gass dersom det skal være sannsynlig å nå togradersmålet. Kilde: Norges Naturvernforbund, basert på Meinshausen et al. (2009)

Årlige investeringer i norsk olje- og gassvirksomhet

(Tall i mrd kr. Kilde: SSB)

Hva ville skjedd om vi innførte moratorium innført i 2004 – for fem år siden?

(Tall i mrd kr. Beregninger basert på tall fra SSB og OD)
